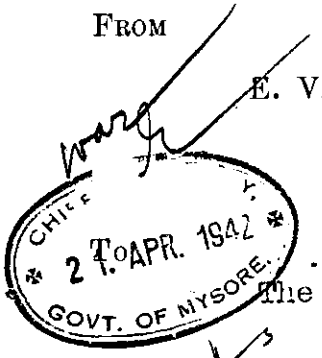
FROM

E. V. GANAPATI IYER, Esq., B.Sc.,
Government Director, Industrial Concerns,
BANGALORE.



The Chief Secretary to the
Government of Mysore, Bangalore.

Sir,

A.R.P. Arrangements at the Government Soap Factory.

I have the honour to submit for the information of Government, a copy of the report No.6149 dated 24th March 1942 and subsequent report No.6669 dated 13th April 1942 received from the Superintendent, Government Soap Factory, regarding the A.R.P. arrangements made at the Government Soap Factory. The Superintendent has been instructed to see the pending items of work are completed immediately and to keep about 20 stirrup pumps ready for use, obtaining them from the Government Electric Factory. He has

CHIEF S
21 APR. 19
MYSORE.

GOVERNMENT SOAP FACTORY, BANGALORE.

No.6149. Dated 24th March 1942.

Submitted to the Government Director,
Industrial Concerns, Bangalore.

As per your personal instructions I have taken action in connection with A. R. P.

1. Window glass panes have been removed and plywood used in their places.

2. The Asst. Engineer-in-Charge, Buildings Division, Bangalore has been requested to arrange to supply about 40 cart loads of sand.

3. One hand pump for pumping water from the well which is in our compound has been purchased.

It would be necessary to have at least six strirrup pumps for use in the Factory. Quotations have been received from Messrs. Kirloskar Bros., and Mr. M. Ramaiah, The quotation of Messrs. Kirloskar Bros., happens to be lower than the quotation of Mr. M. Ramaiah. The cost of pump including 30 feet hose pipe comes to Rs.50/- each. I request your kind permission to purchase six stirrup pumps for use in the Factory in connection with A. R. P.

I request your early orders in the matter.

S/d- M. S. Krishna Rao.
Superintendent.

Re: A.R.P. Arrangements.

In continuation of my report No.6149 of 24-3-42, regarding the action taken in connection with A.R.P. I beg to report for your information, further action taken in the matter:-

1. Torches, Buckets and Hurricane Lanterns have been purchased.
2. About 100 bags of sand have been kept ready for use in case of emergencies in important places.
3. The emission of direct or reflected light from Factory Electric Lights have been controlled.
4. The Assistant Engineer, Building Division, has been addressed in the matter of providing, slit trenches, baffle walls near main entrances and deepening of the old well in the Factory premises etc. I understand that the Asst. Engineer has sent the estimate for favour of your signature. The estimate may kindly be returned duly countersigned to enable the Assistant Engineer to take further action in the matter.
5. Arrangements have been made to convert our Visitors' room as a control room. It is necessary to have a Telephone link in that room. This would cost us Rs.10/- for installation. A sum of Rs.5/- will have to be paid every month towards the hiring charges. I request your permission to have a link Telephone.
6. Two more water tanks, each of about 750 gallons capacity have been filled with water. Arrangements have been made to store about 11,000 gallons of water in the underground cement tank, 15,000 gallons of water will always be available in reserve to meet any emergency.
7. It will be necessary to have a Trailer Pump (Portable heavy water pump)in case of heavy fire. A.R.P. Controller will be requested to supply one Trailer Pump.

p.t.o.

A further report about the progress made will be submitted.

"C O P Y"

Govt. Director,
Industrial Concerns.
